

07 November 2018

Dear Dr Cullen,

Thank you from the bottom of our hearts for the impact you have made in the life of Baby P.

The feedback from Tracey, his caregiver is heart-warming:

*"The day of his operation when he walked outside, he actually cried because of the light that he was able to see. He always used to walk very slowly and cautiously. He often used to spend a lot of time just sitting. Now, he moves around a lot faster and is more active than what he was before the operation. He doesn't pull his face and squint at objects like he used to do, which indicates to me that his eye sight has definitely improved." – Tracey Buitendach*

We truly appreciate you giving freely of your time and expertise to make this operation happen.

The difference this has made and will continue to make in improving Baby P's life and his ability to be educated as he perceives the world around him in a brighter way is priceless.

Thank you!

Kindest Regards

Zina Rotherham
