

**WE LOOK BEYOND WHAT WE SEE!**

**plusoptix**  
eye·vision·technology

**We can't wait  
to visit your  
school!**

# OUR EYE-EDUCATIONAL VISIT INCLUDES:

 Spot & Patches Puppet Show

 An Eye Educational Activity

 A Buddy Gift Pack

 Instrument-based Eye Screening

# Benefits of an Early Eye Screening

-  Convenient for busy parents.
-  No child left unchecked.
-  All ages can be tested, babies too!
-  Early detection of visual problems equals  
vital early intervention!

# What can this eye screening detect?

To name a few:

Media Opacity  
(e.g. cataracts)

Hyperopia  
(farsightedness)

Astigmatism  
(blurred vision)

Myopia  
(nearsightedness)

Strabismus  
(eye misalignment)

Anisocoria  
(unequal pupil size)

Anisometropia  
(Unequal refractive power)

# What about the screening process?

- Trained PlusoptiX technicians use the PlusoptiX S12C Mobile Vision Screener that provides **an accurate refraction reading within just a few seconds** using infrared light.
- **The screening is quick, accurate, non-invasive and entirely safe.** It requires far less attention and involvement from a child compared to traditional screening tests.
- **The test is done at a 1-meter distance**, which means that the Plusoptix early vision screening is entirely **compliant with Covid-19 physical distancing regulation**.
- Children with a 'refer' result will need to undergo a comprehensive eye examination by an Ophthalmologist or Optometrist – preferably specializing in paediatric vision. A copy of the results will be provided to all children after successful payment.

# Our 5 Booking Steps:

1. Give us a **call** or drop us an **email** to book a convenient date.
2. You'll get an email with all the **information** you require including **consent forms** for the parents.
3. The children's names, surnames and date of birth must be sent at least **2 days before the visit**.
4. Kids receive their own **buddy pack** to take home and enjoy!
5. Payments can be made via EFT after the screening. **After receiving proof of payment**, the reports with recommendations are emailed back.

# We're looking forward to hearing from you!
